INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Township of Johnstown, Michigan

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Johnstown, Michigan, as of and for the year ended March 31, 2022, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements, as listed in the contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Johnstown, Michigan, as of March 31, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Township, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required supplementary information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Johnstown's basic financial statements. The combining balance sheet and combining statement of revenues, expenditures, and changes in fund balances for the nonmajor governmental funds are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining balance sheet and combining statement of revenues, expenditures, and changes in fund balances for the nonmajor governmental funds (supplementary information) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Siegfried Crandall P.C.

July 12, 2022

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Township of Johnstown's (the Township) financial performance provides a narrative overview of the Township's financial activities for the fiscal year ended March 31, 2022. Please read it in conjunction with the Township's financial statements.

FINANCIAL HIGHLIGHTS

- The Township's total net position increased by \$157,762 as a result of this year's activities.
- Of the \$3,193,880 total net position reported, \$1,992,110 is available to be used to meet the Township's ongoing obligations to its citizens and customers, without constraints established by debt covenants, enabling legislation, or other legal requirements.
- The General Fund's unassigned fund balance at the end of the fiscal year was \$1,433,748, which represents 515 percent of the actual total General Fund expenditures for the current fiscal year.

Overview of the financial statements

The Township's annual report is comprised of four parts: management's discussion and analysis, the basic financial statements, required supplementary information, and an optional section that presents combining statements for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the Township:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the Township's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Township government, reporting the Township's operations in more detail than the government-wide financial statements.
 - Governmental funds statements explain how government services, like general government, public safety, and public works, were financed in the short-term, as well as what remains for future spending.
 - Fiduciary funds statements provide information about the financial relationships in which the Township acts solely as a custodian for the benefit of others to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The financial statements are followed by sections of required supplementary information and other supplementary information that further explain and support the information in the financial statements.

A comparative analysis of the government-wide financial statements for 2022 and 2021 is also presented.

Government-wide financial statements

The government-wide financial statements report information about the Township as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the Township's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide statements report the Township's net position and how it has changed. Net position (the difference between the Township's assets and liabilities) is one way to measure the Township's financial health, or position.

- Over time, increases or decreases in the Township's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Township, you need to consider additional nonfinancial factors, such as changes in the Township's property tax base and the condition of the Township's capital assets.

The government-wide financial statements present governmental activities. These activities include functions most commonly associated with government (e.g., general government, public safety, public works, library, etc.). Property taxes and state grants generally fund these services.

Fund financial statements

The fund financial statements provide more detailed information about the Township's most significant funds - not the Township as a whole. Funds are accounting devices that the Township uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by state law and bond agreements.
- The Township Board establishes other funds to control and manage money for particular purposes or to show that it is properly using certain other revenues.

The Township has two types of funds:

- *Governmental funds.* The Township's basic services are included in governmental funds, which focus on (1) how cash, and other financial assets that can be readily converted to cash, flows in and out, and (2) the balances left at year end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Township's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information that explains the relationship between them.
- *Fiduciary funds.* These funds are used to account for the collection and disbursement of resources, primarily taxes, for the benefit of parties outside the Township. The Township is responsible for ensuring that the assets reported in the fiduciary funds are used for their intended purposes. The Township's fiduciary balances and activities are reported in the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position. We exclude these activities from the Township's government-wide financial statements because the Township cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE TOWNSHIP AS A WHOLE

Net position

Total net position at the end of the fiscal year was \$3,193,880. Of this total, \$1,107,363 is invested in capital assets and \$94,407 is restricted for various purposes. Consequently, unrestricted net position was \$1,992,110.

Net position, end of year	<u>\$ 3,193,880</u>	<u>\$ 3,036,118</u>

Governmental activities

Governmental activities increased the Township's net position by \$157,762 compared to an increase of \$139,718 in 2021. The Township's revenues increased \$96,149 from 2021, while expenses increased by \$78,105 from 2021. The increase in revenues was due primarily to a renewed weed control special assessment district for Fine Lake, a new special assessment for the paving of Walnut Road, and increased distributions of state shared revenues. The increase in expenses was due primarily to the paving of Walnut Road and increased operating costs of the fire department in the current year.

The total cost of governmental activities this year was \$729,191. After subtracting the charges to those who directly benefited from the programs (\$160,832), operating grants (\$4,638), and capital grants (\$1,825) the "public benefit" portion covered by taxes, state revenue sharing, and other general revenues was \$561,896, compared to \$556,421 in 2021.

FINANCIAL ANALYSIS OF THE TOWNSHIP'S FUNDS

As of the end of the current fiscal year, the Township's governmental funds reported combined ending fund balances of \$2,076,517, an increase of \$164,630 from the prior year.

The General Fund is the primary operating fund of the Township. At the end of the current fiscal year, its fund balance was \$1,565,668, an increase of \$100,934 during the year, as revenues of \$515,443 exceeded expenditures of \$277,709 and transfers out of \$136,800.

The Road Fund is used to account for property tax revenues restricted for road maintenance. Its fund balance at the end of the current fiscal year was \$204,343, an increase of \$8,040, as revenues of \$57,686 and a transfer from the General Fund of \$77,500 exceeded public works costs of \$127,146.

The Fire Fund is used to account for property tax revenues restricted for fire protection costs (both operating and capital). Its fund balance at the end of the current fiscal year was \$212,085, as current year revenues of \$132,947 and a transfer from the General Fund of \$52,500 exceeded public safety costs of \$153,506 and capital outlay costs of \$23,677.

The Fire Capital Fund is used to account for property taxes restricted for fire capital purchases. Its fund balance at the end of the current fiscal year was \$75,356, an increase of \$45,098, as current year revenues of \$91,015 exceeded capital outlay costs of \$45,917.

General Fund budgetary highlights

The Township amended the General Fund revenues and expenditure budget by \$22,583 and \$39,483, respectively, primarily to reflect the Walnut Road special assessment revenues and related project costs that were not anticipated at the time the budget was adopted. Revenues were \$60,537 more than anticipated, as most revenue sources were greater than the budgeted amounts. Expenditures were \$91,428 less than the amounts appropriated, as all of the Township's activities were at, or slightly below, projected levels. The Township experienced a negative budget variance of \$6,800 in other financing uses as a transfer to the Fine Lake Weed Fund was unanticipated. These variances resulted in a \$145,165 positive budget variance, with a \$100,934 increase in fund balance compared to a budget that anticipated a \$44,231 decrease in fund balance.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets

The Township's investment in capital assets for its governmental activities as of March 31, 2022, amounts to \$1,107,363 (net of accumulated depreciation). This investment includes land, buildings, equipment, and vehicles. The Township's net investment in capital assets decreased by \$16,868 for the current year, as \$69,267 in asset acquisitions were offset by \$86,135 in current depreciation.

Major capital asset events during the current fiscal year included the following:

- 2020 Dodge Ram conversion totaling \$45,917
- Parking Lot Improvements of \$19,730
- LifePak AEDs totaling \$3,620

More detailed information about the Township's capital assets is presented in Note 5 of the notes to the basic financial statements.

Debt

At the end of the fiscal year, the Township had no outstanding debt.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Township plans to primarily use current revenues to provide essential services in fiscal year 2023 in order to maintain current fund balances. Expenditures are expected to increase by nominal amounts compared to fiscal year 2022. The ongoing costs of providing essential services for the citizens of the Township will again need to be monitored in order to maintain the financial condition and operational capabilities of the Township. The Township will consider the need for various capital expenditures and additional road improvement projects.

CONTACTING THE TOWNSHIP'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the Township's finances and to demonstrate the Township's accountability for the resources it receives. NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Township of Johnstown, Michigan (the Township), conform to accounting principles generally accepted in the United States of America (hereinafter referred to as generally accepted accounting principles) as applicable to governmental units. The following is a summary of the more significant accounting policies.

Reporting entity:

As required by generally accepted accounting principles, these financial statements present only the Township (located in Barry County), as there are no other entities for which the Township is considered to be financially accountable.

Government-wide and fund financial statements:

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Township. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and the fiduciary fund, even though the latter is excluded from government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement focus, basis of accounting, and financial statement presentation:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within the current period, or soon enough thereafter, to pay liabilities of the current period. For this purpose, the Township generally considers revenues to be available if they are expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

State grants, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable only when cash is received by the Township.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement focus, basis of accounting, and financial statement presentation (continued):

The Township reports the following major governmental funds:

The General Fund is the Township's primary operating fund. It accounts for all financial resources of the Township, except those required to be accounted for in another fund. Revenues are primarily derived from property taxes and state shared revenue.

The Road Fund, a special revenue fund, accounts for financial resources used for road maintenance projects in the Township. Revenues are primarily derived from property taxes.

The Fire Fund, a special revenue fund, accounts for financial resources used for the operational costs of the Township's public safety functions. Revenues are primarily derived from property taxes.

The Fire Capital Fund, a special revenue fund, accounts for capital purchases of the Township's public safety functions. Revenues are primarily derived from property taxes.

Additionally, the Township reports the following fund types:

The special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

The Township also reports a custodial fund, the Tax Collection Fund, which accounts for assets held by the Township in a fiduciary capacity for other governments.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Assets, liabilities, and equity:

Bank deposits - Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Pooled interest income is proportionately allocated to all funds.

Receivables - In general, outstanding balances between funds are reported as "due to/from other funds." No allowance for uncollectible accounts has been recorded, as the Township considers all receivables to be fully collectible.

Prepaid items - Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)*Assets, liabilities, and equity (continued):*

Capital assets - Capital assets, which include property, plant, and equipment are reported in the government-wide financial statements. Capital assets, other than infrastructure, are defined by the Township as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value as of the date received. Governments can elect to account for infrastructure assets either retroactively to June 15, 1980, or prospectively. The Township has elected to account for infrastructure assets prospectively, beginning April 1, 2004.

Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	20 - 40 years
Equipment	3 - 5 years
Vehicles	10 - 15 years

Unearned revenue - Unearned revenue represents resources related to federal grant revenue, which has not yet been earned.

Net position - Net position represents the difference between assets, and liabilities and deferred inflows of resources. The Township reports three categories of net position, as follows: (1) *Net investment in capital assets* consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets; (2) *Restricted net position* is considered restricted if its use is constrained to a particular purpose. Restrictions are imposed by external organizations, such as federal or state laws or buyers of the Township's debt. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets; (3) *Unrestricted net position* consists of all other net position that does not meet the definition of the above components and is available for general use by the Township.

Net position flow assumption - Sometimes, the Township will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Township's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Fund equity - Governmental funds report nonspendable fund balance for amounts that cannot be spent because they are either (a) not in spendable form or (b) legally required to be maintained intact. Restricted fund balance is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws and regulations of other governments. The Township Board retains the authority to assign fund balances as to purpose. Unassigned fund balances are amounts that do not fall into any other category above. This is the residual classification for amounts in the General Fund. In other governmental funds, only negative unassigned amounts are reported, if any, and represent expenditures incurred for specific purposes exceeding the amounts previously restricted or assigned to those purposes. When the Township incurs an expenditure for purposes for which various fund balance classifications can be used, it is the Township's policy to use the restricted fund balance first, followed by assigned fund balance, and, finally, unassigned fund balance.

Property tax revenue recognition - Property taxes are levied as of December 1 on property values assessed as of December 31 of the prior year. The billings are due on or before February 14, at which time the bill becomes delinquent and penalties and interest may be assessed by the Township. Property tax revenue is recognized in the year for which taxes have been levied and become available. The Township levy date is December 1, and, accordingly, the total levy is recognized as revenue in the current year.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, liabilities, and equity (continued):

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Accordingly, actual results could differ from those estimates.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for governmental funds. The budget document presents information by fund, function, and department. The legal level of budgetary control adopted by the governing body is the function level. All annual appropriations lapse at the end of the fiscal year.

Excess of expenditures over appropriations - The following schedule sets forth the reportable budget variance:

<u>Fund</u>	<u>Function</u>	<u>Final budget</u>	<u>Actual</u>	<u>Variance</u>
General	Other financing uses	\$ 130,000	\$ 136,800	\$ 6,800
Fire	Capital outlay	21,815	23,677	1,862

NOTE 3 - CASH

State statutes and the Township's investment policy authorize the Township to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations. The Township's deposits are in accordance with statutory authority. At March 31, 2022, the Township had deposits with a carrying amount of \$2,159,431.

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the Township will not be able to recover its deposits. The Township's investment policy does not specifically address custodial credit risk for deposits. At March 31, 2022, \$1,106,919 of the Township's bank balances of \$2,201,134 was exposed to custodial credit risk because it was uninsured and uncollateralized.

NOTE 4 - RECEIVABLES

Receivables as of March 31, 2022, for the Township's individual major funds and nonmajor funds, in the aggregate, were as follows:

<i>Fund</i>	<i>Accounts</i>	<i>Property taxes</i>	<i>Special assessments</i>	<i>Inter- governmental</i>	<i>Totals</i>
General	\$ 750	\$ 7,218	\$ 10,025	\$ 46,841	\$ 64,834

Equipment	(472,647)	(28,183)	-	(500,830)
Vehicles	<u>(807,826)</u>	<u>(33,281)</u>	<u>-</u>	<u>(841,107)</u>
Subtotal	<u>(1,512,435)</u>	<u>(86,135)</u>	<u>-</u>	<u>(1,598,570)</u>
Total capital assets being depreciated, net	<u>1,115,219</u>	<u>(16,868)</u>	<u>-</u>	<u>1,098,351</u>
Governmental activities capital assets, net	<u>\$1,124,231</u>	<u>\$ (16,868)</u>	<u>\$ -</u>	<u>\$1,107,363</u>

NOTE 5 - CAPITAL ASSETS (Continued)

Depreciation expense was charged to functions of the Township as follows:

Governmental activities:	
General government	\$ 26,586
Public safety	<u>59,549</u>
Total	<u>\$ 86,135</u>

NOTE 6 - PAYABLES

Payables as of March 31, 2022, for the Township's individual major funds and nonmajor funds, in the aggregate, were as follows:

<u>Fund</u>	<u>Accounts</u>	<u>Payroll</u>	<u>Inter- governmental</u>	<u>Totals</u>
General	\$ 2,062	\$ 2,644	\$ -	\$ 4,706
Fire	9,671	6,442	-	16,113
Nonmajor funds	<u>-</u>	<u>-</u>	<u>1,808</u>	<u>1,808</u>
Totals	<u>\$ 11,733</u>	<u>\$ 9,086</u>	<u>\$ 1,808</u>	<u>\$ 22,627</u>

NOTE 7 - INTERFUND BALANCES AND TRANSFERS

The amount due to the General Fund from the Fine Lake Weed Fund represents short term financial support until the winter 2022 special assessment is levied.

The transfers to the Fire Fund and Road Fund from the General Fund represent annual appropriations of \$52,500 and \$77,500, respectively, for future road maintenance and public safety operations.

The transfers to the Fine Lake Weed Fund from the General Fund represent initial start-up costs of the special assessment district.

NOTE 8 - PROPERTY TAX REVENUES

The 2021 taxable valuation of the Township approximated 116,627,000, on which ad valorem taxes levied consisted of 0.9209 mills for operating purposes, 0.9848 mills for fire protection, 0.7794 mills for fire capital, 0.4923 mills for roads, and 0.2967 mills for library services, raising approximately \$107,000 for operating purposes, \$115,000 for fire protection, \$91,000 for fire capital, \$57,000 for roads, and \$35,000 for library services. These amounts are recognized in the respective fund financial statements as property tax revenue.

NOTE 9 - DEFINED CONTRIBUTION PENSION PLAN

The Township and its employees contribute to the Johnstown Township Group Pension Plan, a defined contribution pension plan, which is administered by a third-party administrator. The plan covers all elected officials, salaried fire employees, and volunteer firefighters.

Benefit terms, including contribution requirements, for the Plan are established, and may be amended, by the Township Board. In a defined contribution plan, benefits depend solely on amounts contributed to the plan, plus investment earnings. Employees are eligible to participate as described above. The Township contributes 10% of covered payroll to the first class of qualifying employees. The Township contributes \$200 for salaries under \$1,000, plus an additional \$200 for each additional \$1,000 of salary, up to \$800, then \$100 for each additional \$1,000 of compensation. Employees are permitted to make contributions to the Plan, up to applicable Internal Revenue Code limits. For the year ended March 31, 2022, the Township made contributions of \$25,720. At March 31, 2022, the Township reported an accrued liability of \$4,720 as part of the contributions to the plan.

The Township's contributions for each employee (and investment earnings allocated to the employee's account) are fully vested on the day the employee is eligible to participate in the plan, which occurs after one month of service.

The Township is not a trustee of the defined contribution pension plan, nor is the Township responsible for investment management of the pension plan assets. Accordingly, plan assets, and changes therein, are not reported in these financial statements.

NOTE 10 - RISK MANAGEMENT

The Township is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation). The Township has purchased commercial insurance for each of these claims and is neither self-insured, nor participates in a shared-risk pool. Settled claims relating to commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

NOTE 11 - JOINTLY GOVERNED ORGANIZATION

The Township, together with the Townships of Barry, Hope, and Prairieville, established the Southwest Barry County Sewer and Water Authority (the Authority), under the provisions of Act 233 of 1955, to operate, maintain, administer, and manage a sewage collection and disposal system. The governing body of the Authority is made up of one elected official from each member township. Operating costs are financed through user fees, and debt service costs are paid from special assessments upon benefited properties. The Township does not retain an ongoing financial interest or responsibility in the Authority.

NOTE 12 - AMERICAN RESCUE PLAN ACT of 2021

On March 11, 2021, the United States executed the American Rescue Plan Act of 2021 (ARPA), which included \$362 billion in funds to be awarded as economic assistance to state and local governments to prepare for and respond to COVID-19. Under the American Rescue Plan Act, the Township was awarded approximately \$329,352 in federal Coronavirus Local Fiscal Recovery Funds ("ARPA Funds"). The Township received half of the ARPA Funds in September 2021, with the second half anticipated in 2022. The amount received in 2021 (\$164,676) is presented as unearned revenue in the General Fund at March 31, 2022, as no expenditures were incurred during 2022. The Township is subject to rules issued by the U.S. Treasury Department regarding the use of ARPA Funds and has identified the following allowable uses: support public health expenditures, address negative economic impacts caused by the COVID-19 public health emergency, replace lost public sector revenue, provide premium pay for essential workers, and invest in water, sewer, and broadband infrastructure. The Township expects to spend the awarded funds under the applicable federal guidelines.

NOTE 13 - PENDING ACCOUNTING PRONOUNCEMENTS

Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*, was issued by the GASB in June 2017 and will be effective for periods beginning after June 15, 2021. The objective of this Statement is to increase the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use the underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.
